

Terms of Sales

1. Acceptance of Order

All quotations are valid for 30 calendar days unless otherwise specified in writing. No binding sales contract is formed until we issue formal written order confirmation to the Buyer. Any purchase order issued by the Buyer constitutes an offer and shall be subject to these Terms of Sales. We reserve the right to reject or cancel any order without prior notice in case of stock shortage, raw material price fluctuation, export control restrictions or other uncontrollable factors.

2. Pricing & Payment

All prices are quoted in US Dollars. Prices exclude freight, insurance, import duties, VAT and any destination local taxes unless clearly agreed in written quotation. Standard payment term: 30% deposit upon order confirmation, balance paid before shipment. Other payment terms are available only after mutual written negotiation and credit evaluation. We reserve ownership of all goods until full payment is received.

3. Delivery & Lead Time

Lead time stated in quotation is estimated for reference only. We will inform the Buyer promptly if any delivery delay occurs caused by supply chain, logistics or force majeure. Partial shipment is allowed unless the Buyer raises written objection before order confirmation.

4. Product Specification & Modification

Products comply with published datasheets. Minor technical optimization of standard RF components may be implemented without prior notice, provided the electrical performance remains equivalent. Customized products cannot be cancelled once production commences.

5. Return, Warranty & Liability

Standard products enjoy 12-month limited warranty against manufacturing defects from shipment date. Warranty excludes damage caused by improper installation, over-power operation, unauthorized modification, transportation damage or improper storage. Return requests must be submitted to us in writing within 15 days after goods receipt. Unauthorized return shipment will be rejected. We are not liable for indirect loss, profit loss or project delay loss arising from product usage.

6. Export Compliance

The Buyer guarantees that all purchased RF products will not be re-exported, diverted or used in violation of China, EU, US and related countries' export control, sanctions and dual-use item regulations. The Buyer takes full responsibility for end-use verification.

7. Force Majeure

Neither party shall be liable for failure to perform obligations caused by events beyond reasonable control, including natural disasters, epidemic, trade restrictions, port congestion, supplier suspension and logistics interruption.

8. Governing Law

All transactions shall be governed by the laws of the People's Republic of China. Any dispute shall be resolved via friendly negotiation first; if negotiation fails, disputes shall be submitted to arbitration in Shenzhen.
